## Request for Expression of Interest

### Consulting Services: **Selection of an Evaluation Agency**

**September 2022**

CONSULTING SERVICES  
**EXPRESSION OF INTEREST (EOI)**

**1. Background**

Assam's population is expected to increase to 34 million by 2021<sup>1</sup> and continue to grow. A vast majority (86%) still resides in rural areas<sup>2</sup>. Catering to the demands of a rising population as well as meeting its developmental goals is going to be a major challenge for the state, especially in terms of managing the pressure on its forests and natural resources to meet those needs. It is also important to note that Assam is a primarily rural state, with 53% of its population engaged in agriculture<sup>3</sup>. Production of all crop types has been increasing<sup>4</sup>, and the majority of the rising population is bound to stay within the sector. This means that the pressure on forest areas to make way for more agricultural land is set to continuously increase. This also sets the stage for increasing instances of man-animal conflicts as people breach natural habitats to meet their needs. Further, the global issue of climate change is a major threat to Assam's rich and complex ecosystems. Forest communities that depend directly on forests will be especially vulnerable. This interrelated web of challenges being faced by the state needs urgent solutions. The Forest Department, being the custodian of the forests, operates at the juncture where people and natural resources interact. The department needs to address these challenges, while also increasing its capacity to do so.

To support the Forest Department of Assam in its endeavor to effectively manage its forest and biodiversity, the French Development Agency – Agence Française de Développement (AFD) and the State Government of Assam co-funded “Assam Project on Forest and Biodiversity Conservation (APFBC)”. Phase – I of the project was implemented between February 2012 and May 2019.

After successful implementation of Phase I, APFBC Phase II began in August 2019, with a budget of € 62.5 million (INR 500 crore). AFD will contribute 80% of the budget at € 50 million (INR 400 crore) and Government of Assam will contribute 20% of the budget at € 12.5 million (INR 100 crore).

**2. Project Description**

Forest Department in Assam is composed of three primary wings that manage the forest divisions – Territorial (33), Social Forestry (14), and Wildlife (8). The Forest department also has a Research, Education, and Working Plan (REWP) wing who are responsible for working plan preparation & forest resources inventory and assessment.

The Assam Project on Forest and Biodiversity Conservation Society (APFBCS), a Special Purpose Vehicle created by the Government of Assam and registered under the Societies Registration Act is mandated with overall execution, management, and coordination of the project activities through a Project Management Unit (PMU) established to implement the project. Project implementation sites- Forest Divisions and other entities- is considered as Field Implementation Units (FIUs). The PMU is supported by the Project Management and Monitoring Consultant (PMMC) for technical assistance and project monitoring. The overall vision of the project is that it contributes through the Forest Department to the conservation of nature for a “*healthier ecosystem and happier communities*”. This overarching vision/goal shall be reached through the following three main specific objectives:

- Developing participatory Sustainable Forest and Biodiversity management under changing climatic conditions

- Improving the livelihoods for Forest neighbouring communities through inclusive (collective and individual) supports
- Strengthening the Forest department to better fulfil its missions

**3. The APFBC Phase II project is divided into four major components. Brief description of each component is presented below:**

- i. *Component 1: Conservation of Ecosystems:* the key focus of Phase II is conservation of forests and wildlife. The component is divided into two sub-components to ensure each receives due attention:
  - a. *Sustainable Forest Management:* activities will include
    - State-wide forest resource mapping will be conducted to form a database of the state's natural resources and conservation needs.
    - 12,500 ha of plantations,
    - Setting up Climate Change and REDD+ processes and
    - Improvement of infrastructure needed by frontline staff
  - b. *Biodiversity Conservation:* addresses the critical conservation needs of the rich biodiversity of the state through activities as
    - Improvement of Protected Area management,
    - Conservation efforts for a few key species (especially those that have not received enough attention so far),
    - Outreach efforts to spread public awareness and
    - Supporting the Assam State Biodiversity Board in making its Biodiversity Management Committees stronger.

This component will also contain a number of technological interventions aimed at enhancing the department's conservation efforts and effectiveness.
- ii. *Component 2: Community Engagement* aims to
  - a. Further strengthen the 136 existing communities from Phase I as well as support 125 new communities through training and supporting JFMC/EDCs for joint forest management and linking them with alternate livelihood options.
  - b. Build market linkages to ensure that the livelihood interventions are successful and sustainable.
  - c. Converge with existing government schemes to ensure forest fringe communities reduce their dependence on forest resources
  - d. Form Self Help Groups and Joint Liability Groups to allow beneficiaries to function independently and reap benefits from the activities initiated under the project even after the project is over.
- iii. *Component 3: Institutional Strengthening* addresses: Forest Department's most urgent institutional gaps, ensuring that it is equipped to deal with the complex challenges it faces.

Activities are as under:

- a. Conduct of a comprehensive HR study including strengthening of the legal cell, procurement cell and research and education cell
- b. Digitizing the department's work by strengthening the Forest Management Information System (FMIS),
- c. Improving the human resource module of the FMIS,
- d. Supporting the Forest Schools by addressing their infrastructural requirements.

e. Project management of Phase II.

iv. *Component 4: Climate, Gender and Social Inclusion:*

*Throughout the project activities, Climate, Gender and Social Inclusion will be recurring and cross-cutting themes for all activities. This is reflected in the Project's Environmental and Social Commitment, which will be fulfilled through the Environmental and Social Management System and the Gender Action Plan. The project is committed to ensuring fair gender representation as well as inclusion of vulnerable sections of all stakeholders, especially in case of its beneficiary communities. This translates to a participative approach wherever applicable, such as for microplanning with the community; and an inclusive approach inviting a broad representation of community members, such as in case of livelihood trainings. Considering the wide ambit of project activities which would interact with forests, biodiversity and other large infrastructural undertakings (equipment, vehicles, buildings, etc.), the Project shall closely monitor its activities to ensure alignment with its climate, gender and social inclusion commitments.*

**4. Expected Outcomes of the Project: The expected outcomes of APFBC Phase-II are as under:**

- Enhanced sustainable and participatory forest management under changing climatic conditions.
- Sustainable and participatory management of biodiversity/ecosystems.
- The improved livelihood of forest-dependent communities.
- Strengthened institutional capacities for inclusive management of natural resources.

**5. Project Documents:** Further details of the project, implementation arrangements, and the project documents are available on the project website [www.apfbcn.org](http://www.apfbcn.org) .

**6.** The APFBC Phase-II recognizes that evaluation is a proven tool to identify the strengths and weaknesses of implementation of a project and help with course correction if needed. The evaluation agency shall conduct a midline and end-line assessment of the project to measure progress and quality of implementation against the log frame indicators. The mid-line assessment shall aim to assess the continued relevance of an intervention and the progress made towards achieving the project's planned objectives. They provide an opportunity to make modifications to ensure the achievement of these objectives within the lifetime of the project. The end-line assessment shall assess the effectiveness of the APFBC Phase II project.

**7.** The *[Assam Project on Forest and Biodiversity Conservation (APFBC)] [has received-] financing from Agence Française de Développement ("AFD")*, and intends to use part of the funds thereof for payments under the following contract "**Selection of an Evaluation Agency**".

**8. Scope of the assignment:**

1. Develop study design, sample size, and methodology for evaluating the implementation of the APFBC Phase II as per their existing work plan.
2. Data collection from the relevant stakeholders as per the approved methodology.
3. Carry out comprehensive outcome and impact focused evaluations of the project at two defined milestones- mid-term review and project completion.
4. Use both quantitative and qualitative methods for assessment and prepare a report with interpretation of results and recommendations.
5. Consolidate the information generated by the concurrent monitoring (primarily on inputs & outputs) and periodic monitoring (primarily on outcomes & impacts) by the APFBC to update the key performance indicators for the project. These indicators would be selected from the existing list of indicators in the project log-frame/theory of change. A separate set of indicators drawn from Government of India's Joint Forest Management (JFM) guidelines [Refer to Assam Joint (people's participation) Forestry Management Rules, 1998 and Guidelines for strengthening JFM Programme, Ministry of Environment and Forest, Government of India, February 2000] would be used by the Evaluation agency for assessing the efficiency, effectiveness, utility of Joint Forest Management
